

The **U.S. Women's Health Alliance** (USWHA), partnering with Willow Risk Advisors & ProAssurance, offers exclusive medical professional liability coverage to its members. The program provides risk management educational opportunities and coverage enhancements tailored to women's health specialists.

ProAssurance & Willow Risk
Supporting USWHA practitioners with strong defense, risk management expertise, and long-term price stability.

Risk Management Educational Activities and Resources

Program members who complete selected risk management activities may qualify for a 25% premium credit during renewal consideration. Activities and resources include access to Relias online courses with CME credit available and an annual baseline self-assessment.

Strong Defense for a Frequently Sued Specialty

To be accused of negligence resulting in patient harm is one of the worst things that can happen to a physician. We understand the importance of maintaining your reputation as a competent and caring physician.

Our goal is to defend you for the fairest result—not the cheapest way out of a claim. In fact, we have a strong record of taking a high number of cases to jury verdict (where environments allow) and winning.

This program provides you an unfettered defense, giving you the control to have your good medicine defended and not settling the claim.*

Additional Program Benefits

- Potential for profit sharing for program members.
- Extended time to report professional incidents before required assertion of liability (60 days vs. 30 days for standard policy).

**Where permitted and feasible*
