

U.S. WOMEN'S HEALTH ALLIANCE

PARTNERING FOR A BRIGHTER FUTURE

ProAssurance & Willow Risk support USWHA Practitioners with strong defense, risk management expertise, and long-term price stability.

The **U.S. Women's Health Alliance (USWHA)**, partnering with Willow Risk Advisors & ProAssurance, offers medical professional liability coverage to its Members. The program also provides risk management educational opportunities and coverage enhancements tailored to women's health specialists.

A Challenge Solely Focused on the Specialty of Women's Health

To be accused of negligence resulting in patient harm is one of the worst things that can happen to a medical provider. The program understands the importance of maintaining your reputation as a competent and caring provider/clinician. The goal is to defend you for the fairest result—not the cheapest way out of a claim. In fact, the program has a strong record of taking a high number of cases to jury verdict (where environments allow) and winning. This program provides you an unfettered defense, giving you the control to have your good medicine defended and not settling the claim.*

Risk Solution Management Educational Activities and Resources

Program Members who complete selected risk management activities may qualify for a 25% premium credit during renewal consideration. Activities and resources include access to Relias online courses with CME credit available and an annual baseline self-assessment.

Additional Program Benefits *Where permitted and feasible

- Potential for profit sharing for USWHA Members.
- Extended time to report professional incidents before required assertion of liability (60 days vs. 30 days for standard policy).
- Up to a 25% credit for the program Members who complete the risk management course
- Allegations of injury to a child that is brought separately and independently from the mother will be deemed as a separate professional incident when determining the applicable amount of primary coverage.
- Consent to settle
