

Exclusive Medical Liability Program

American Society of Interventional Pain Physicians (ASIPP) was created to promote the recognition of the interventional pain management specialty, expand educational opportunities, improve resources and, most importantly, increase safety and quality of the unique and effective interventional techniques offered to our patients.

To help further increase patient safety, while decreasing your risk of a medical malpractice claim, ASIPP has endorsed Willow Risk Advisors Insurance Agency as their professional liability insurance partner. Willow Risk Advisors has teamed up with Curi Insurance to develop an exclusive Medical Malpractice Insurance Program tailored specifically to serve Interventional Pain Physicians.

PROGRAM AND POLICY HIGHLIGHTS*

Exclusive program with premium discounts available for ASIPP members**

- **The Legacy Fund:** Member savings accounts that grow tax-deferred and pay out upon designated events, including retirement
